

Ashburton's Astounding Activities

A group of approximately 50 students, all wearing blue shirts and dark shorts, are posing for a group photo on a stone bridge. They are arranged in several rows, with some sitting on the bridge's edge and others standing behind them. In the background, there is a large, classical-style stone monument with a pediment and columns. The scene is outdoors with green trees and a clear sky.

This is a postcard about Sharplin Falls
so lets start learning about it. Stand
on the bridge and make it rock.
Tramping through the mud and
slipping on the rocks.
We hope you enjoy are PowerPoint
postcard about our trip to Sharplin
Falls

Sharplin Falls

Information about this special activity...

Location: only a 45 minute drive west from Ashburton.

Special Features: the track is a loop track and has a good view to see the waterfall, you are able to go right under it, if you want to get wet go for it.

This activity is significant to our town because... lots of schools for camp there and it is the closest track in Ashburton for people to walk and see the wonderful views.

The activity is important to us because.... it's a good nature walk and is a track that we can walk easily.

To... Room 6 Children
Tinwald school
131 Thomson Street
Ashburton
7700.

Hi there,

We have just been to Sharplin Falls! It's a huge walking track, just past Stavely, that we got to by bus. It was one of the best times of our lives. The track was steep some of the time and was muddy in places. The water fall was amazing. On the way back to the bus we were able to walk along the river. We had lots of fun jumping across the rocks so that we wouldn't get too wet. We even had time to go exploring in the water to see what other treasures we could find.

From Matthew, Sala and Nadia.
