

Ashburton's Astounding Activities

A group of approximately 40 people, mostly wearing blue shirts and blue hats, are posing for a group photo in front of a large, classical-style stone building with columns. The scene is outdoors with trees and a clear sky in the background. The photo is framed by a thick orange border.

This is a postcard about activities you can do at the Rakaia Gorge. Most of the information we have got is off the web. Sit back and relax and enjoy our PowerPoint. Hope you like our post card.

Rakaia Gorge

Information about this special activity...

Location: Edge of Rakaia River 45 minutes drive from Ashburton.

Special Features: camping ground, walking tracks, kayaking, jet boat rides and the worlds best salmon.

This activity is significant to our town because... it is the only river that has jet boating tours close to Ashburton.

The activity is important to us because... it is bumpy, rough and exciting and there are a lot of activities to do all in one place

Hi there Kowhai children our group has been to Rakaia Gorge to study it. There is lots of activities up here like jet boating trips, kayaking, shooting and fishing. We just took a trip up the river on the Discovery Jet. What an awesome experience. It was fun and exciting. We had to hang on around the corners. We took lots of photos. What a day we had. It was lots of fun at Rakaia Gorge. From Cassandra, Glen and Gregory.
