

# **Ashburton's Astounding Activities**

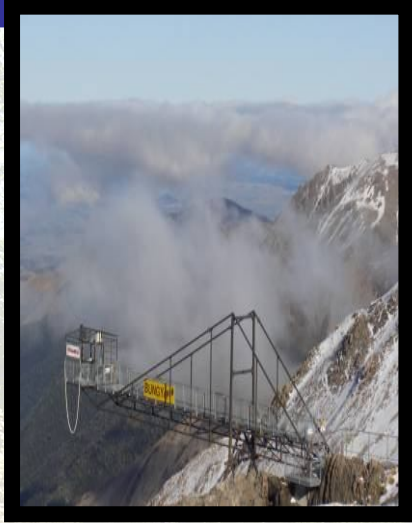

A large group of students, mostly young women, are posed in many rows in front of a large, classical-style building with columns. They are all wearing matching blue uniforms, including blue shirts, blue shorts or skirts, and blue bucket hats. Some students are holding small blue folders or books. The scene is outdoors with trees and a clear sky in the background.

**This is a postcard about our  
adventure to one of Ashburton  
districts most well known  
treasure, Mt Hutt.**

**Sit back and relax as you view  
our PowerPoint and postcard  
about what we got up to on our  
fun journey...**

# Mount Hutt

## Information about this special activity...

**Location:** located at the foot of the Southern Alps 2086m above sea level. Mt Hutt is found 10 km from the Methven township, just follow the sign posts!

**Special Features:** triple chair lift to take you from the bottom of the ski field to the top of the mountain, magic carpet for beginners, terrain park with jumps. In the summer there is a bungee available during summer a BMX track. It is even open to have a look at our wonderful plains.

**This activity is significant to our town because** Mount Hutt is the closest ski field and brings lots of tourist.

**The activity is important to us because...** it has lots of exiting activities and is always a fun day.

Hi there this is Levi, Charlie and Marika. We have just spent the day at Mount Hutt. Charlie went on the chair lift and then he fell over and rolled the rest of the way down. Levi went in the helicopter and saw Charlie and Marika skiing on the snow. It was fun sitting in the front seat seeing Charlie and Marika crash. Marika went on the summit six and skied from the top of the mountain all the way down! The best part so far was having a warm hot chocolate in the café especially when we were so cold from falling over. Hope you are all enjoying school today and we will see you tomorrow.

From Charlie, Levi and Marika
